

# Grid Box Clouds

The methodical beams of Grid Box sketch a cross-hatch pattern across the ceiling, calmly drowning out noise while bringing back a timeless look.

# How to Specify

Step by step instructions on how to specify Grid Box Clouds.

01  
Choose baffle design.  
(pg 03)

02  
Choose grid spacing.  
(pg 04)

03  
Choose accessories or configuration.  
(pg 05-07)

04  
Choose colour or texture.  
(pg 08-09)

05  
Choose installation method.  
(pg 10)

# Dimensions

Grid Box Clouds come in 2 standard designs.

Grid Box - Level

Grid Box - Stack

Edge Detail

Box Edge

Customization

Mix and match baffle dimensions or create your own to fit your space.

Baffle A

Baffle B

Baffle C

# Spacing

Choose from the following standard spacing options.

**Customization**  
Custom spacing available.

# Optional Infill Panels

Fill up one or multiple openings in the cloud for a varied look.

Plain Infill Panel

Stripes A Infill Panel

Stripes B Infill Panel

Stripes C Infill Panel

**Customization**

Ask us about creating your own custom pattern.

# Optional Borders

Close off the edges of the cloud or leave it open. Borders typically have the same dimensions as one of the baffles.

Grid Box Level with no border

Grid Box Level with border

Grid Box Stack with border

# Configurations

Choose from one of the following configurations or create your very own.

Configuration Elements

Config 1

- Grid Box Level
- No border
- No infill panels

Config 2

- Grid Box Stack
- Border
- Plain infill panels

Config 3

- Grid Box Level
- No border
- Partially filled with plain infill panels

Config 4

- Grid Box Stack
- Border
- Partially filled with Stripes infill panels

Config 1

Config 2

Config 3

Config 4

# Standard Colours

Choose from any one of our standard colours.

# Installation

## Cloud Suspension Kit

# Product Specifications

## Grid Box Clouds

### Composition

100% polyester fibre

### Health & Safety

- Fire-rated
  - ASTM E84 Class A
  - CAN/ULC-S102.2-10 compliant
- Low VOCs
  - CDPH v1.2 compliant
- Mould & mildew resistant
  - ASTM C1338 compliant

### Colour & Texture Variations

The felting and dyeing process that forms the material contributes to its unique texture but also to variations in texture and colour from panel to panel. Products will be provided within an acceptable range of variation.

### Sustainability

- 100% recyclable
- Made with 60% post consumer recycled content
- Declare Red List free
- Contributes to LEED certification
- Environmental Product Declaration

# Sound Absorption Graph

The following values reflect the acoustic properties of the product as tested in accordance with ASTM C423-09a.

|                | 200  | 250  | 315  | 400  | 500  | 630  | 800  | 1000 | 1250 | 1600 | 2000 | 2500 | NRC  | SAA  |
|----------------|------|------|------|------|------|------|------|------|------|------|------|------|------|------|
| Without Infill | 0.56 | 0.51 | 0.49 | 0.51 | 0.74 | 0.87 | 0.92 | 0.98 | 1.04 | 1.01 | 1.06 | 1.11 | 0.80 | 0.82 |
| With Infill    | 1.10 | 1.10 | 0.99 | 0.96 | 1.05 | 1.16 | 1.20 | 1.21 | 1.22 | 1.20 | 1.22 | 1.29 | 1.15 | 1.14 |

# Product Care

## Handling & Storage

Handle products with care so as to avoid folding the polyester felt, chipping its edges, or indenting its faces. Store products in their original containers in a well-ventilated area until the intended application environment is ready for installation. Allow products to acclimatize to environmental conditions. Lay them flat on their faces; do not stand them on their edges. Protect from moisture, heat, direct sunlight, and the elements.

## Warranty

AKUSTUS warrants the construction and finish of all our products to be free from defects in material and workmanship for a period of 1 year from the date of purchase.

## Maintenance

Lightly brush or gently vacuum to remove dust from polyester felt. Clean with warm water and mild, non-toxic soap to remove spills. Test solution on an inconspicuous spot before applying to more visible areas. Blot with a dry cloth after applying the solution to avoid saturating the material. Avoid applying too much pressure when cleaning the products.
