SHU-CL-120-240

Shukaku is the Japanese word for “harvest” and the traditional practices of harvest are what inspired Nanako Sube when she designed **Shukaku Cloud**. In rural Japan, rice stalks are gathered into bundles and then hung on racks to dry before being threshed to separate the grain from the stalks. Sube took the shape of these bundles, mirrored and repeated them to create the grid-like structure of the cloud. Suspend Shukaku in a hotel foyer or station concourse to bring a piece of pastoral calm to the space.

Product Care

Handling & Storage

Handle products with care so as to avoid folding the polyester felt, chipping its edges or indenting its faces. Store products in their original containers in a well-ventilated area until the intended application environment is ready for installation. Allow products to acclimatize to environmental conditions. Lay them flat on their faces; do not stand them on their edges. Protect from moisture, heat, direct sunlight and the elements.

Maintenance

Lightly brush or gently vacuum to remove dust from polyester felt. Clean with warm water and mild, non-toxic soap to remove spills. Test solution on an inconspicuous spot before applying to more visible areas. Blot with a dry cloth after applying the solution to avoid saturating the material. Avoid applying too much pressure when cleaning the products.

Warranty

AKUSTUS warrants the construction and finish of all our products to be free from defects in material and workmanship for a period of 1 year from the date of purchase.
