TRL-CL-T-128-128 & TRL-CL-T-128-241

No matter what shape the **Trellis Cloud** comes in, its ability to absorb sound and its characteristic grid stay the same. Designed to resemble the trellis structures that adorn gardens and backyards, Trellis Clouds nurture the same sense of peace and calm in a laid-back cafe or in a bustling office. Suspend them from the ceiling and watch them work their magic.

Product Care

Handling & Storage

Handle products with care so as to avoid folding the polyester felt, chipping its edges or indenting its faces. Store products in their original containers in a well-ventilated area until the intended application environment is ready for installation. Allow products to acclimatize to environmental conditions. Lay them flat on their faces; do not stand them on their edges. Protect from moisture, heat, direct sunlight and the elements.

Maintenance

Lightly brush or gently vacuum to remove dust from polyester felt. Clean with warm water and mild, non-toxic soap to remove spills. Test solution on an inconspicuous spot before applying to more visible areas. Blot with a dry cloth after applying the solution to avoid saturating the material. Avoid applying too much pressure when cleaning the products.

Warranty

AKUSTUS warrants the construction and finish of all our products to be free from defects in material and workmanship for a period of 1 year from the date of purchase.
